

# GITHUB

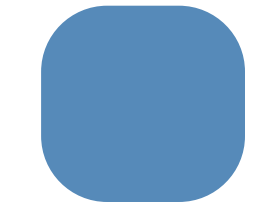

BY FABIANO TELLO

# WHAT'S GITHUB

GitHub is a platform for hosting code that allows for version control and collaboration.

# THE HISTORY OF GITHUB

The site was launched in April 2008

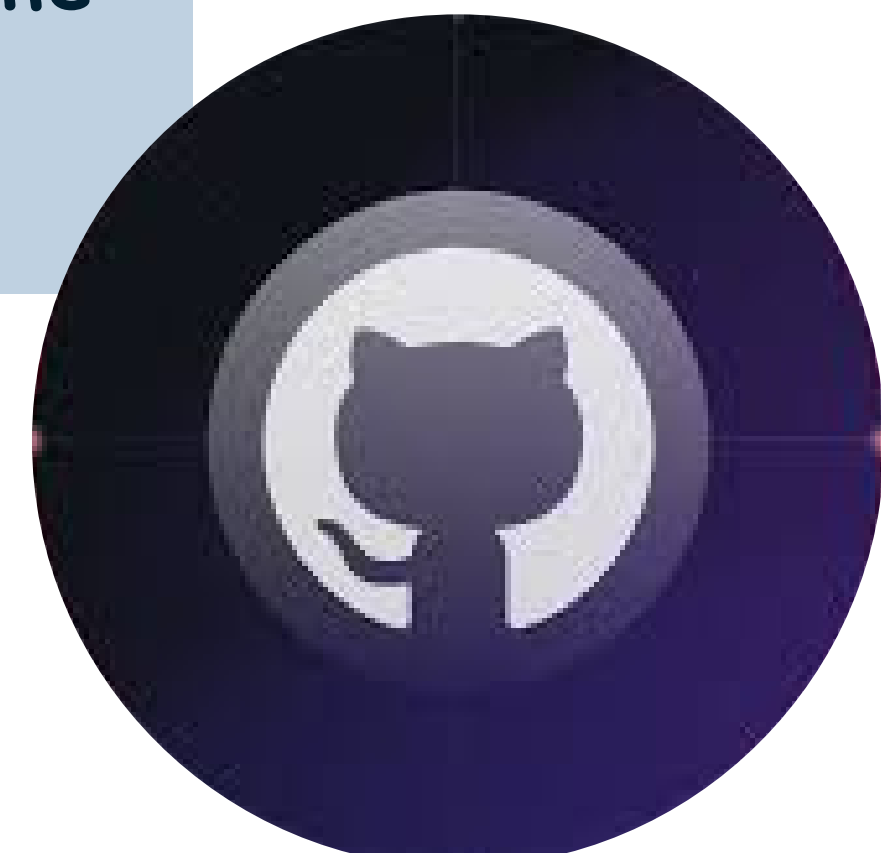

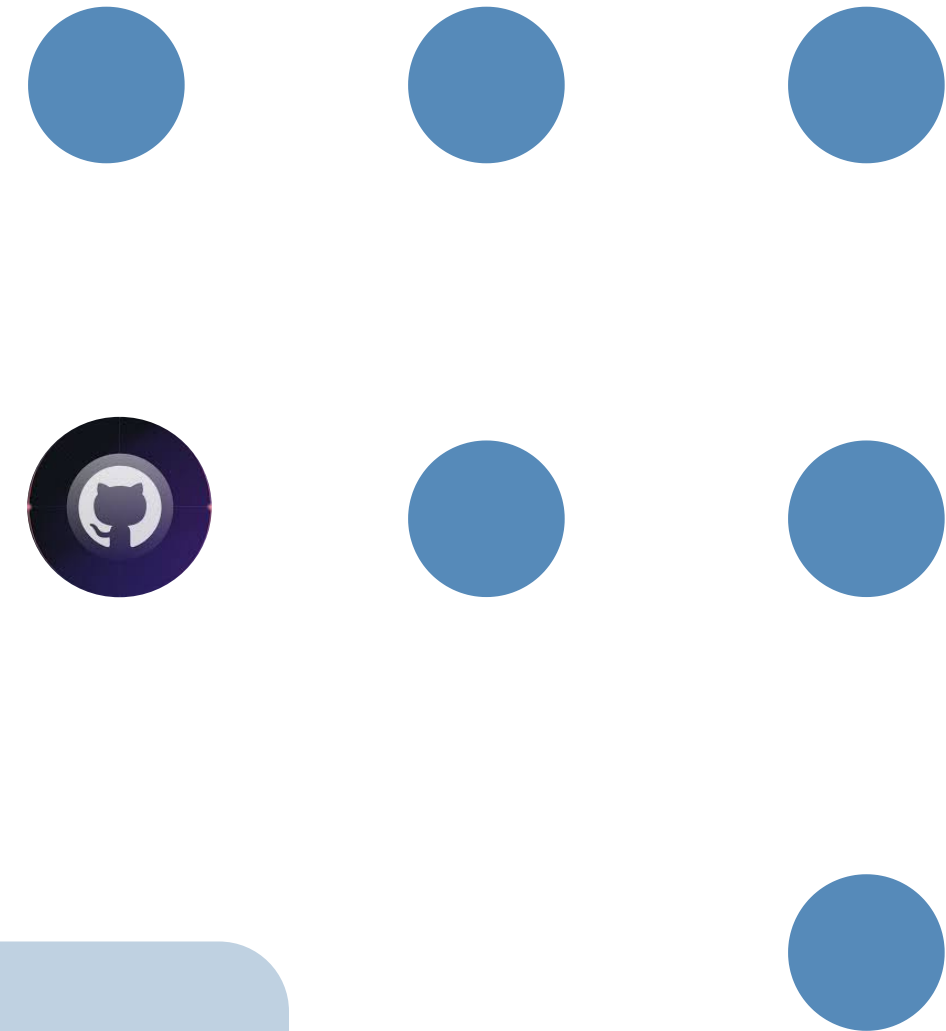

- The development of the GitHub platform began on October 19, 2007.

# WHAT IS GITHUB FOR?

GitHub hosts Git repositories and provides developers with tools to ship better code through command line features.

iTHANK YOU!
